

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Announces New Aerolite Brake Kits for the 2014-Present Dodge Challenger and Charger

Camarillo, CA • July, 2015

Wilwood's forged aluminum Aerolite radial mount calipers and 14.25" diameter **Spec 37** alloy directional vane two-piece rotors are combined in these all new brake upgrade packages for the 2014-present Dodge Challenger and Charger. Six piston front calipers (base kit P/N 140-14067) and four piston rears (base kit P/N 140-14068) are available in gloss black or red powder coat. SRP drilled and slotted performance rotors with BP-10 compound metallic composite *SmartPads*, or GT competition series rotors with face slots only deliver high-torque stopping power, optimized cooling efficiency, and high-tech styling for the street or track. Kits include all necessary hardware with DOT approved stainless steel braided flexlines, and a detailed instruction guide for an easy bolt-on installation.

M.S.R.P. starts at \$2,021.59
