

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Extends Sponsorship with CAM Challenge Through 2016

Camarillo, CA • March 2016

Wilwood Disc Brakes has extended their sponsorship for the CAM Challenge Events Powered by SCCA through the 2016 season.

The CAM Challenge was created in 2015 with three autocross events across the country for American muscle vehicles. This year the series added a fourth event with a new rules package that should attract more competitors. Wilwood will support the competitors with product certificates at each event.

"We were eager to join the CAM Challenge in 2015 as American muscle pro-touring competition is a strong segment for Wilwood," said Steve Cornelius, Director of Sales and Marketing with Wilwood Engineering. "We are excited to continue our support of the series and help educate competitors on the right brake packages for their vehicle and driving style."

About Wilwood Disc Brakes

Founded by Bill Wood in 1977, Wilwood Engineering expertly designs and manufactures high-performance disc brakes and components from their headquarters in Camarillo, California. Engineered and rigorously tested for any application, Wilwood brakes provide unsurpassed quality and performance with sleek, modern designs.
